Locations: Montreal, Canada; Seoul, Korea; Helsinki, Finland

Markets and Solutions

Immersion licenses haptics technology across several key market segments to make the user experience with digital devices more efficient, intuitive, realistic and fun. The company's solutions make it fast and easy to realize the many benefits of touch feedback for products such as mobile phones, personal media players, GPS devices, vehicles, gaming consoles and peripherals, medical and surgical tools and training simulators, and industrial and commercial equipment.
